Projects

Municipality of Athens – Greenery Department

10/2023 – 01/2025

🔗 [GIS City of Athens](#)

Development of a Geospatial Database and creation of an ArcGIS Online user guide

Project with ESRI Developers

11/2023 - 12/2024

🔗 [ArcGIS Workflows for Climate Change](#)

This project introduces methodologies for documenting climate change impacts exclusively through open and freely available data.

Urban Heat Island Detection

10/2023 - 08/2024

🔗 [Global Heat Risk Index App](#)

A free, globally accessible application for detecting urban heat islands anywhere in the world.

Participation in Conferences

ArcGIS Greece–Cyprus Users Meeting 2024

10/2024

🔗 [GIS Application for Fire Risk Assessment of Properties](#)

Presentation of a web GIS application for assessing fire risk.

I find purpose in assignments that deliver measurable outcomes and create a meaningful impact on society. I enjoy working in environments that create continuous growth, encourage personal improvement, and support collaboration. I embrace the challenge of taking responsibility for crucial tasks and excel at absorbing new information.

Professional Experience

Ellinogermaniki Agogi

01/2023 - Present

Project Manager & Researcher

I manage European funded projects focusing on the educational field. My main responsibilities include:

- Manage European projects (€400 K - €1.5 M total; org. share ~€100 K), focusing on development of geospatial skills, green & digital competences on teachers and students.
- Train 100+ teachers through hands-on workshop in Professional Development Courses, Seminars and Summer Schools
- Coordinate work packages; delivering pedagogical frameworks and implementation reports in European Commission Portal.
- Develop and oversee EU project outcomes; guide teachers in integrating materials into classrooms; monitor impact through analysis of 450 student pre- and post-implementation questionnaires.

Hellenic Electricity Distribution Network Operator

01/2023 - 11/2023

Field Engineer

- Operated a mobile mapper and GNSS systems to accurately map the energy network
- Generated point cloud data and compiled daily progress reports for project stakeholders

Department of Civil Protection & Environment

06/2021 - 12/2021

Internship

- Continuously monitored fire protection measures and visualized workflows using GIS tools

Seasonal Work

06/2016 - 09/2022

Artemis Beach

- Communication with suppliers and customer service

Education

University of Piraeus

10/2023 - 06/2025

MSc Climate Crisis and Information & Communication Technologies

9,34

Hellenic Mediterranean University

10/2017 - 02/2022

BSc Natural Resources & Environment Engineer T.E.

8,65

Educational Seminars

Foundations of Project Management

10/2022

Coursera and Google

Topics: RACI Charts, SWOT Analysis, Budgeting , Agile and Waterfall Management

Be Your Own Boss

12/2020

Corallia & Prince's Trust International

Topics: Business Model Canvas, Elevator pitch, User journey, Storyboards, Budget & cashflow monitor

Volunteer Work

University Radiophonic Team

12/2017-01/2021

🔗 [Rat Fm](#)

- Volunteered as an event organization manager and radio producer, overseeing concept development and logistics for live events
- Produced radio segments tailored to diverse audience interests, ensuring high-quality broadcasting content
